SOAK-OFF[®]
GEL POLISH

Performs like Gel, Applies like Polish™

DONE RIGHT. FROM THE START.

As nail artists ourselves, we understand that nothing is more important than the tools of our craft and nothing is more challenging than product inconsistencies. It has been and always will be that quality is our #1 priority.

Gelish® was the first brush-in-bottle gel polish ever invented. The US and International patented formulation proves that fact.

The fact that millions and millions of bottles have been sold to—and reordered again and again by—thousands of salons is further proof. So, the fact is, the innovative Gelish® system, still the best on the market no matter who else followed, continues as the one most trusted by nail techs worldwide.

Our success is measured by your success. We are committed to you, the nail technician, to provide the best products, to share our knowledge through unprecedented education, therefore developing long lasting customer loyalty.

THE GELISH® DIFFERENCE

What makes the patented Gelish® formula unique is unlike other brush-on gels, Gelish® applies like a polish for easier application, smoother flow, better product leveling for a streak free and more complete curing for longer, chip free wear.

NEW CAP
Ergonomically designed cap fits comfortably in the hand for hours of strain free services.

NEW BRUSH
Laser-cut domed bristle brush gives the smoothest application yet and provides better control near the cuticle. Increased bristle count, exclusively salon tested to pick up the ideal amount of product, ensures full coverage and streak-free application.

NEW FORMULA
Better product flow for a perfect finish every time.

COLOR BAND
Hate searching for the right Gelish shade? With the new shoulder color ring, find each shade easily within your drawer. Not to mention, the larger color dot on the shrink sleeve helps with on-shelf identification.

NEW BOTTLE
Matches the Morgan Taylor® bottle to create a true family.

LARGER COLOR DOT
Ever experience in-bottle curing? Our new 100% opaque packaging keeps product fresh.

fall in love with Gelish®
all over again

GELISH® IS THE GOLD STANDARD OF SOAK-OFF GEL POLISH. It is and will always be the original soak-off gel polish and because of this it has become the trusted, go-to brand for nail technicians.

And now, the best is getting even better with an enhanced formulation for better stability, more accurate color, and improved product flow for an even easier, smoother laydown. The new, sleek Gelish® bottle provides better on-shelf and in-salon color designation with its larger color dot and color bar that can be seen from any angle. The new custom brush provides for better control, feel, and a streak free application. This is the gold standard as you've never seen it before.

vitagel®

GEL NAIL STRENGTHENERS IN TWO DIFFERENT FORMULAS

VITAGEL® LED/UV LIGHT CURED NAIL STRENGTHENER

VitaGel's intensive soft gel formula is the most effective nail strengthening regimen yet. The micro-suspension technology stores molecules of vitamins A, B5 and E within the exclusive gel formula for a continuous release of nutrients into the nail bed for up to 14 days. The combination of vitamins is specially formulated for the ongoing absorption of keratin into the nail plate.

- Strengthens natural nails. The protective layer prevents splits, chips and peeling, and increases flexibility
- Enriched with Vitamins A, B5 & E to encourage healthy nail growth and flawless wear
- Extends wear of any nail lacquer from 2-3 days to 7-10 days
- Easy to apply and remove
- Versatile wear. To strengthen, can be applied:
 - Alone, for a clear finish, under any nail lacquer, or under any gel polish

VITAGEL® STRENGTH FORMULATED TO MAINTAIN NATURAL NAILS

Strengthens & protects natural nails. Perfect for maintaining healthy nails. Eliminates peeling of the natural nail and gives you a strengthening base for any nail lacquer.

MOVE OVER ACRYLIC AND HARD GEL. THE FUTURE IS HERE.

LIGHTER. STRONGER. EASIER.

POLYGEL™ NAIL ENHANCEMENT SYSTEM

POLYGEL™ is an all-in-one formula for the perfect working consistency. No monomer, no mixing, no ratios. The odorless formula allows you to work as fast or as long as you want. Tube dispensing allows you to use just what you need for no wasted product. Formulated using a game-changing polymer fusion, PolyGel's™ breakthrough TriPolymer Technology™ delivers gravity-defying performance for astonishingly easy, chase-free applications. The unique putty-like viscosity ensures smooth, flawless nails and even color. PolyGel's™ formulation combines acrylic powder for strength in a gel base with photo initiators providing workability without the unpleasant monomer odor. And, the heavier-than-air TriPolymer fillings are 30% heavier than acrylic and hard gel fillings, which means they fall to the table for virtually no airborne dust.

*TriPolymer Technology = Oligomers from Gels; Polymers from Acrylics; Polymers from Lacquer

SQUEEZE SLICE ROLL

STEP 1:
Squeeze just the right amount of PolyGel™ out of the tube, slice product with your multi-purpose tool. Roll onto nail.

STEP 2:
Using your brush and a small amount of Slip Solution shape product into place. Use with a short square, firm synthetic brush.

STEP 3:
Cure 30 seconds in 18G LED Light.

gelish® apply & remove

SHAPE, SMOOTH, REFINE, BUFF, SHINE & FINISH

APPLY

STEP 1: Sanitize the nails and your clients' hands. Push back the cuticle.

STEP 2: Clean the surrounding nail plate.

STEP 3: Shape the natural nail using your Hand & Nail Harmony file of choice (recommended: Hand & Nail Harmony Wooden File).

STEP 4: Gently remove the shine using the Hand & Nail Harmony 100/180 Buffer.

STEP 5: Remove the dust and wipe the nail with Gelish® Cleanser using a lint-free wipe.

STEP 6: Apply Gelish® pH Bond to the nail plate.

STEP 7: Apply Gelish® Foundation Gel - in a thin application and seal the edges of the nail.

STEP 8: Place hand in the Gelish® LED 18G Light for 5 seconds or UV Light for 1 minute.

STEP 9: Apply Gelish® Soak Off Gel Polish of Choice - in a thin application from cuticle to free edge. Be sure to seal the edges of the nail. Place hand in the Gelish® LED 18G Light for 30 seconds (20 seconds for light colors) or a UV Light for 1 minute for lighter colors or 2 minutes for darker colors. (For darker coverage, repeat this step once.)

STEP 10: Apply Gelish® Top It Off Gel Sealer from cuticle to free edge using a thin light application. Place hand in Gelish® LED 18G Light for 20 seconds or UV Light for 2 minutes.

STEP 11: Cleanse inhibition layer with Gelish® Nail Surface Cleanse and Wipe It Off™ lint-free wipes.

STEP 12: Massage Gelish® Nourish Cuticle Oil to the skin surrounding the nail.

REMOVE

STEP 1: Break top seal by gently roughing the surface with 100/180 Grit Buffer and remove shine.

STEP 2: Saturate cotton or nail wipe with Gelish® Artificial Nail Remover. Place cotton or wipe on foil. Wrap nail with foil. Soak for 15 minutes.

STEP 3: Remove foil. With orangewood stick, gently remove any remaining gel. Be careful not to press into the nail.

STEP 4: Lightly buff nail surface with a 220/280 Buffer.

STEP 5: Massage Gelish® Nourish Cuticle Oil into skin surrounding nail plate.
